

CASE STUDY

INSTALLATION DATE:
2014

END USER:
NOV (National Oilwell Varco) Research and
Development Lab

LINES SIZES AND MATERIALS:
1" through 4" carbon steel pipe ST
52.4 (E355+N)

SYSTEM MEDIUM:
Hydraulic Oil

LOCATION:
Houston, Texas USA

SPECIAL COMMENTS OR NOTES:
Tube-Mac® Industries Inc., USA custom designed a hydraulic oil system for this client. Our team then fabricated and installed the pipes on site using 37° Flare Flanges and Retain Ring Flanges. Upon completion, Tube-Mac® technicians pressure tested and oil flushed the system before handing it over to NOV, ready for operation.
